Punctuality and effective execution of coaching responsibilities are essential. You are expected to arrive on time for every scheduled practice session, ensure that training begins and ends as planned, and make productive use of the allotted practice time.

Equally important is your responsibility to actively teach and develop our players. Nets practice should be properly organized, with dedicated attention to batting techniques, bowling skills, fielding drills, stamina, fitness, and individual player improvement. Merely supervising practice is not sufficient; players must receive proper technical guidance, correction, and constructive feedback.

We expect you to plan sessions in advance, maintain discipline among players, and demonstrate the same level of commitment and punctuality that we expect from the team.

Our objective is to improve the overall standard of cricket at the club, and this requires accountability, consistency, and dedication from the coach as well as the players.
